

EXPERIENCE KENYA AS A TRUE EXPLORER

Sleep amongst the Chyulu Hills, with the stars as your ceiling

WWW.GREATPLAINSCONSERVATION.COM

Ever fancy yourself as an intrepid explorer?
Sleeping out under the African stars?
That magical place exists.

You will find it at ol Donyo Lodge's brand new fly camping experience - in the Kenya wilderness. Created just for you.

Savour a night or two camping in the heart of the Chyulu Hills. A beautiful area, often written about in times gone by, filled with mist forests, lava tubes and grand views of Africa's wide open savannahs.

Journey to camp by foot or horse back (or we can drive you too) and when you get there, it's all yours to enjoy – along with our famed wildlife of course. Yurt-style bell tents with bedrolls won't detract from the real thrill and adventure of sleeping in the wilderness.

Relinquish the fast pace of the 21st century and get back to nature. Listen to the fire crackle as we enthrall you with fireside tales and fall asleep to the sounds of Africa!

Take this opportunity to immerse yourself in the peace and solitude of camping on the doorstep of Mount Kilimanjaro.

This unique experience is available as part of a standard 4 or 5-night stay at ol Donyo Lodge at no additional charge.

Further information and itineraries are available on request.
